ELBOWS / TUBE BENDS

FOR PIPING CONSTRUCTIONS

Radii BA 3, BA 5, BA 10 and special radii
Exerpt from our tool list, further dimensions and radii on request

pipe diameter (mm)		wall thickness from - to (mm)
60,3	2“	2,6 - 12,0
76,1		2,9 - 14,0
88,9	3“	3,2 - 17,5
101,6	3 ½“	3,6 - 17,5
114,3	4“	3,6 - 30,0
133		4,0 - 25,0
139,7		4,0 - 25,0
168,3	6“	4,5 - 17,5
219,1	8“	5,0 - 8,8

Materials:
all cold-formable materials

As **isometry** according to customer´s requirement bent in one piece.

Consulting, planning, support:
by TUBE-TEC with CAD (AUTO-CAD) and bending simulation programs.

3D coordinate measuring system for measuring of the pipes on site. Reduction of downtime, because parallel production is possible.

Shortening of the downtime as parallel manufacturing is possible.
